Maths

Hello year 6

This week in maths you are going to be completing arithmetic questions and then questions on fractions of amounts.

Click on the link below to watch two videos, and then complete the questions.

When you have completed those, go to the document Maths Activity 2 and complete the reasoning questions.

Remember that you can email me if you have any questions.

I would also love to see your completed work - take a photo and email it to me.

orchid@deltaprimarylet.org

Take care

Kate

## Fractions of amounts applied in context

Part of [Daily lessons](#) | [Year 6 and P7 lessons](#)

+ Add to My Bitesize

Daily  
lessons

### Home learning focus

In this lesson you will learn how to solve problems involving finding the fraction of an amount.

This includes:

- two videos
- two worksheets

Created in partnership with [Pearson](#).
