

## Warm up: Use adjectives in noun phrases

A noun phrase is a small group of words which contains a noun but doesn't contain a verb. A noun phrase usually contains a noun plus other words to describe it.

The new bike is mine.

An expanded noun phrase is a group of words that has a noun and more detail to describe it:

The new, blue bike is mine.

## Warm up: Use adjectives in noun phrases

Early one morning, I looked out my window and saw a telephone box.

Can you uplevel this sentence by adding a noun phrase?

Challenge: Can you include an expanded noun phrase?

This is my  
teleporter.

Discuss:

What is a  
teleporter?

Something that can transport you to different times, such as:  
the past, future, or anywhere in the world.

Discuss: If YOU had a teleporter, what would it look like? Choose one below if you would like to, or think of your own one.

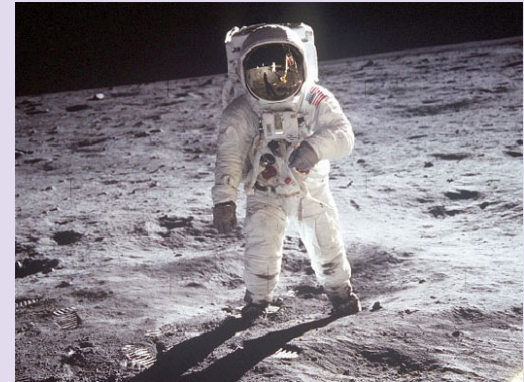

Draw, or make your own teleporter. Include colour and think of a name for it. Can you include noun phrases to describe it?

Now, let's start to think about a story about your teleporter. You are going to go on a trip, but where to?

Think about these questions:

1. Where would it take you?  
(1666 during the Great Fire of London, to the moon with Neil Armstrong, Africa or even a made up place)
2. What would you see, or do?  
(how the fire started in 1666, jump around on the moon with Neil Armstrong)
